PROFESSIONAL SUMMARY

Full-Stack Frontend Specialist with proven expertise in building production-ready applications using Next.js, React.js, TypeScript, and Firebase. I design and ship scalable, high-performance web applications across diverse domains—from esports platforms and e-commerce to financial dashboards and hosting systems. Proficient in UI/UX optimization, responsive design, cloud integration, and API architecture. Demonstrated ability to collaborate in team environments, deliver quality code, and rapidly adapt to emerging technologies. Passionate about crafting user-centric solutions that drive engagement and measurable business impact.

TECHNICAL SKILLS

- **Frontend Development**
Next.js, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
 - **State Management & Performance**
React Hooks, Context API, Custom Hooks, Performance Optimization
 - **Backend & Full-Stack**
Node.js, Express.js, REST APIs, Firebase (Authentication, Firestore, Storage), MongoDB
 - **Cloud & Deployment**
Vercel, Netlify, Firebase, CI/CD Pipelines
 - **Tools & Integration**
Git, GitHub, Figma, Cloudinary, Nodemailer, Third-party APIs
 - **Additional Technologies**
React Native & Expo (mobile development), Wordpress (CMS)
-

WORK EXPERIENCE

Frontend Developer & Quality Assurance Engineer (2024 – 2025)

- Developed and maintained the Finosell finance dashboard using React.js.
- Collaborated with backend developers to integrate RESTful APIs for seamless functionality.
- Conducted manual quality assurance testing before production deployment.

Frontend & Mobile Developer | Essential Nigeria Limited (2024 – 2025)

- Built and maintained web applications using React.js and Next.js.

- Developed cross-platform mobile applications with React Native & Expo.
- Integrated state management solutions using Redux & Context API for optimal performance.
- Optimized codebase for scalability, performance, and reusability.

Undergraduate Intern | LASTMA (2021 – 2022)

- Assisted in designing and updating web pages under the guidance of senior developers.
 - Managed payroll data and records using Microsoft Excel.
 - Took ownership of minor development tasks and provided technical support.
-

PROJECTS & PORTFOLIO

GWC – Gamers World Collective (Gaming & Esports Platform)

- Built a comprehensive esports platform with tournament management, live scoreboards, and community engagement features
- Tech Stack: Next.js 15, TypeScript, Tailwind CSS, Firebase, Vercel
- Key Features: Tournament registration, community hub, gaming clubs, merchandise shop, blog platform, user authentication
- Live Demo: <https://gwc-site-eight.vercel.app/>
- Repository: <https://github.com/abdullateef36/gwc-site>

Bibahs Fashion Store (E-commerce Platform)

- Developed a full-featured fashion e-commerce platform with product browsing and checkout functionality
- Tech Stack: Next.js, React.js, Tailwind CSS, Payment Integration
- Key Features: Product catalog, mobile-first design, secure transactions, inventory management
- Live Demo: <https://www.bibahs.online/>
- Repository: <https://github.com/abdullateef36/Bibahs-Collections>

Finosell Website & Admin Dashboard (Finance Management Platform)

- Developed the frontend website and contributed to the admin dashboard for a financial management system
- Tech Stack: Next.js, TypeScript, Tailwind CSS, REST APIs, Netlify
- Website Features: Financial service showcase, responsive design, SEO optimization
- Dashboard Features: Transaction tracking, real-time data visualization, user management, analytics
- Website Demo: <https://finosell.vercel.app/>
- Dashboard Demo: <https://finoselldash.netlify.app/>
- Website Repository: <https://github.com/abdullateef36/Finosell-Website>
- Dashboard Repository: <https://github.com/mosesadeyinka/finosell-admindashboard> (Contributor)

Hosting Platform (Full-Stack Web Application)

- Engineered a static site hosting platform for uploading and previewing websites with live proxy routing
- Tech Stack: Next.js, TypeScript, Firebase Authentication & Storage, Vercel
- Key Features: User authentication, file upload and management, proxy-based routing, unique site IDs, live preview dashboard
- Live Demo: <https://hosting-platform-ikd3.vercel.app/>
- Repository: <https://github.com/abdullateef36/Hosting-Platform>

Durells Agency (Corporate Website)

- Built a professional agency website showcasing services and company information
- Tech Stack: Next.js, React.js, Tailwind CSS
- Key Features: Service showcase, contact forms, SEO optimization, fully responsive layout
- Live Demo: <https://durells-people-solutions.vercel.app/>
- Repository: <https://github.com/abdullateef36/Durells>

EDUCATION

Higher National Diploma (H.N.D) in Computer Science

Yaba College of Technology, Lagos (2022 - 2024)

National Diploma (N.D) in Computer Science

Yaba College of Technology, Lagos (2018 - 2021)

Senior Secondary School Certificate

Ikeja Senior Grammar School (2013 - 2016)

CORE COMPETENCIES

- Problem Solving & Debugging
- Clean Code & Performance Optimization
- Team Collaboration
- Fast Learning & Adaptability

ADDITIONAL

- Actively building real-world projects
- Strong interest in scalable systems and product development
